NOTE FOR:

25X1

FROM:

VC/CIPC

SUBJECT: Combat Intelligence Analysis Report

25X1

1. Attached please find a copy of the subject report authored by [] 25X1
You will find it relevant to your studies on NFIP Support for Contingency
Operations and Intelligence as a Force Multiplier.

2. You may recall that the DIRNSA initially requested a wide-ranging
study, but that the task force focused on the more narrow set of issues and
referred the remaining problems to DoD.

3. In calling your attention to this report, I am not suggesting that we
should similarly limit the scope of the topics you are now undertaking. It
is, however, necessary to be mindful of the problems incurred by [] and
the task force in addressing the combat intelligence question. I suggest that
you might want to talk with [] further about this subject. 25X1
